BACHELOR OF DENTAL SURGERY

- The only professional dental degree in South Australia
- Clinical experience from first year
- Learn in Australia's newest dental teaching hospital, in the state-of-the-art AHMS building
- Explore the full range of dental therapies—from complex restorative to preventative-based treatments
- Practise using equipment in the Dental Simulation Clinic
- Tackle real-life case scenarios in teams
- Benefit from extensive placements across metropolitan and rural settings
- Improve lives through community outreach programs

DURATION	INTAKE	IELTS
5 years full-time	February	7
MIN. DOMESTIC ACADEMIC SCORE / IB	**MIN. INTERNATIONAL ACADEMIC SCORE / IB**	
90 / 34	90 / 34	
PREREQUISITES		
1 from Chemistry, Mathematics or Physics & 1 from Biology, Chemistry, Geology or Physics		

BACHELOR OF DENTAL SURGERY

WHAT'S INVOLVED?

Year 1
- Small group discovery experiences
- Focus on the initial phases of patient care

Year 2
- Focus on restoring and maintaining oral health
- Develop scientific skills to examine, assess risk and manage healthy patients with minor conditions

Years 3 & 4
- Extend understanding of dental disorders and human diseases
- Develop clinical skills in comprehensive treatment planning

Year 5
- Consolidate clinical skills in a range of clinical placements
- Manage patients with complex range of dental problems

CAREER OPTIONS

- **Gain a professional qualification as a dentist**
- **Private practice: start a practice, work as an associate or join a partnership**
- **Public sector: work in government, community or school-based dental clinics**
- **Provide dental care in developing countries**
- **Become a researcher and improve oral health care**

3 years full-time	Feb & July	6.5
MIN. DOMESTIC ACADEMIC SCORE / IB	**MIN. INTERNATIONAL ACADEMIC SCORE / IB**	
65 / 24	75 / 27	
PREREQUISITES		
None		

BACHELOR OF PSYCHOLOGICAL SCIENCE

WHAT'S INVOLVED?

Year 1
- 4 core psychology courses and 4 elective courses

Year 2
- 5 core psychology courses
- Students also select either a second major or continue to choose from a wide variety of electives

Year 3
- 4 core psychology courses, including a compulsory research methodology course
- 4 courses can be selected from psychology courses or electives
- For students who choose to undertake a second major, the electives in third year will consist of second major courses

CAREER OPTIONS

Graduates work across a range of jobs and sectors, in areas such as:

- **Research assistants**
- **Recruitment agencies**
- **Government agencies**
- **Rehabilitation agencies**
- **Marketing companies**
- **Human resources**
- **Option to apply for further study to hold a career as a Psychologist**

BACHELOR OF PSYCHOLOGICAL SCIENCE

MAJORS

Over 35 options for majors including:

- Addiction Studies
- Anthroplogy
- Criminology
- English
- Indigenous Knowledge & Society
- Italian Studies
- International Development
- Japanese Studies
- Microbiology
- Modern Greek Studies
- Music
- Philosophy

BACHELOR OF PSYCHOLOGICAL SCIENCE

DEGREE AIMS

- Online learning combined with face-to-face teaching
- Range of resources and interactive learning tools

Exposure to a range of areas including:

- Memory
- Mental Health
- Learning
- Social psychology
- Motivation and emotion
- Intelligence
- Personality
- Development psychology
- Research methods training
- Biological bases of behaviour
- Cross-cultural psychology

STUDY JOURNEY TO BECOMING A REGISTERED PSYCHOLOGIST

Undergraduate Entry Pathways

3 Years Bachelor of Psychological Science

1 Year Bachelor of Psychological Science (Honours)

4 Years Bachelor of Psychology (Advanced) (Honours)

Graduate Entry Pathways

1 Year Bachelor of Psychological Science (Graduate Entry)

1 Year Bachelor of Psychological Science (Honours)

2 Years Master of Psychology (Clinical) or
Master of Psychology (Health) or
Master of Psychology (Organisational and Human Factors)

Eligibility to apply for full registration with the Psychology Board of Australia

To gain clinical endorsement, further postgraduate supervision is required
