

About Us

The Engineering Institute of Technology (EIT) delivers industry-driven programs to ensure our students have the skills required in the real industrial world. Our four Bachelor of Science degrees and our four Master of Engineering degrees are available on campus in Perth, Western Australia and online. Our four Master of Engineering degrees are also available on campus in Melbourne, Victoria. Our programs are designed to impart practical skills which can be directly applied in the workplace, these programs are facilitated by on-campus lecturers, who are experts in their industry.

Why EIT?

Engineering Specialist

We are one of the only institutes in the world specializing in engineering.

Industry-Oriented

Our degrees are designed by an international body of industry experts, ensuring you graduate with cutting-edge skills that are valued by employers around the world. Our program content will remain current with rapidly changing technology.

Industry Experienced Lecturers

Our lecturers are highly experienced engineers with applied knowledge.

World-Class Australian Accredited Education

Like all Australian higher education providers and universities, EIT programs are accredited by the exacting standards of the Australian Government's Tertiary Education Quality and Standards Agency (TEQSA). Many of our degrees are recognized under international engineering accords.

Unique Delivery Model

We deliver our on-campus degrees via a unique methodology that makes use of an international pool of expert lecturers, dedicated learning support officers, and provides you access to cutting-edge simulation software alongside physical and virtual laboratories to test concepts and deepen your understanding of program content. When studying on-campus in Australia, our supportive blended learning model and small class sizes encourage you to advance your technical knowledge and remain engaged in your studies while forming global networks.
