### Please Note the following benefits:

- Each program has applicable scholarships available ([please click here for scholarships](#)).
- Students who have had to defer their Semester 2 offers due to delayed exams, or delayed results, will no longer need to wait until Semester 1, 2021 (February) to commence their studies.
- Students make a head start on their studies so as not to lose time.
- Students studying a Trimester online from their home country reduces the cost of living expenses otherwise incurred if based in Australia.
- Students will continue to receive a high quality education, with online support, from academic staff.
- Students who may have been considering joining a September – November intake in the UK and US may decide to opt for the more stable health environment in Australia, particularly within South Australia.
